

CANDIDATE INFORMATION SHEET

Election to the Board of Directors of Hammocks Community Association Incorporated

NAME: Ricardo Rodriguez Danton

Address: 10171 SW 154th Circle Court Apt #104, Miami, Florida 33196

Describe your background, education, qualifications, and any other information about yourself that you consider relevant for Members to know:

I am a long-time resident of The Hammocks community, having grown up here from early childhood and now continuing to live and invest in the community as an adult. The Hammocks is not only where I live, but the neighborhood that helped shape me, and I have a strong personal commitment to its long-term well-being, character, and quality of life.

I have been actively involved in community service, including serving as a dedicated member of the Landscape Committee until it was disbanded. In that role, I worked collaboratively with fellow residents and management to help preserve and responsibly maintain our shared outdoor spaces. I remain engaged in local community efforts and believe in contributing time, expertise, and thoughtful participation to the improvement of our neighborhood.

I am committed to transparent governance, accountability, and decision-making that balances immediate needs with long-term planning. As a Board member, my focus would be on restoring trust, encouraging resident participation, and ensuring decisions are made in the best interest of the entire community.

Professionally, I am trained and experienced in the architecture, design, and construction industry, where I manage complex projects, budgets, consultants, and regulatory requirements. I hold a formal education in architecture and design and bring strong skills in analysis, coordination, problem-solving, and clear communication. I would approach Board service with the same diligence, professionalism, and integrity that I bring to my work.

Above all, I care deeply about The Hammocks and its residents and I am committed to helping ensure our community remains a safe, attractive, and well-managed place to live for current and future generations.
